SECTION B: Answer ONE question

Question 4

Gooma is considering leasing land to Lizza for a term of 30 years. The title will remain with Gooma at the end of the initial lease term. Lizza can lease the land indefinitely at a small immaterial rent at the end of the lease or may purchase the land at a 90% discount to the market value after the initial lease term. Lizza is to pay Gooma a premium of \$3 million at the commencement of the lease, which equates to 70% of the value of the land. Additionally, Gooma will receive an annual rental payment of 4% of the market value of the land as at the commencement of the lease.

The directors of Gooma are unsure as to whether the lease should be classified as a finance lease or an operating lease.

Required:

- a. Based on IFRS 16 Lease, list key factors that should be considered by a lessor when determining whether a lease is a finance lease or an operating lease.

(5 marks)

- b. In accordance with IFRS 16 Lease, explain how Gooma should classify the lease of land.

(10 marks)

- c. Discuss the accounting treatments in Gooma and Lizza regarding to the lease of land.

Question 5

The directors of Aron would like advice with regards some financial instrument transactions that took place during the year ended 31 December 2021.

- (i) On 1 January 2021, Aron purchased \$10 million of bonds at par. These bonds had been issued by Winston, an entity operating in the video games industry. The bonds are due to be redeemed at a premium on 31 December 2024, with Aron also receiving 5% interest annually in arrears. The effective rate of interest on the bonds is 15%. Aron often holds bonds until the redemption date, but will sell prior to maturity if investments with higher returns become available. Winston's bonds were deemed to have a low credit risk at inception.

On 31 December 2021, Aron received the interest due on the bonds. However, there were wider concerns about the economic performance and financial stability of the video games industry. As a result, there has been a fall in the fair value of bonds issued by Winston and similar companies. The fair value of the Aron's investment at 31 December 2021 was \$9 million.

Required:

Advise Aron on how to deal with the above transactions in the financial statements for the year ended 31 December 2021.

(15 marks)

- (ii) Aron's share capital is comprised of 'A' class shares. These shares have been correctly classified as equity. Aron is considering issuing the following instruments:

- 'B' class shares that are not mandatorily redeemable but contain a call option allowing Aron to repurchase them. Dividends would be payable on the B shares if, and only if, dividends are paid on the A ordinary shares.
